**Appreciation Letter**

Dear Jay Sharma,

It is really appreciable and noteworthy the kind of leadership provided by you for the Android Application development project work for BSNL

Because of your proactive involvement and technical expertise in Android App Development from inception till rollout and subsequent technical support provided to the BSNL staff, it was possible to launch the prestigious '**ME-REG GO GREEN**' Android App.

With the help of '**ME-REG GO GREEN**' Android App, following goals were achieved:

1. **Syncing of End Users Mobile numbers and Email Id's using BSNL's services with that of BSNL's database.**
2. **Help in getting the total and current bill outstanding amount of customers under one roof.**
3. **Targeting customers having large outstanding bills.**
4. **Allowing customers to opt for Go Green Bill option thus reducing the revenue cost incurred by BSNL in sending hard copied bills.**

Because of your expertise, BSNL ITPC (Information Technology Project Circle) Pune has successfully launched the App on time.

This letter is to let you know that we are aware of your good performance and passion for work.

Keep the same spirit and enthusiasm for the work

With Best Wishes.
